Yes, I saw. Where would that meeting take place?

I also saw that Dave didn't really answer the questions. He should get the rest of the data soon, but then there is no telling how long for the submittal. I will ask John Robinson if he can ask for the data sheets prior to the submittal.

Did you see that we might have a meeting with DNR the week of the 14<sup>th</sup>. If we do, Tower Standard will be discussed. I don't expect it to be a meeting to discuss the details but really just an opportunity to talk about communication.

Thanks Bob. Didn't go hunting this year as my wife and her family planned thanksgiving down in Florida and we were down there for a week. While I missed the time in the woods, it sounded pretty cold and quiet up here. That and I was wearing shorts and flip flops which was nice...

Tower – we have the well installation, development, sampling (low flow) and surveying completed. We are in the process of completing all the paperwork on the forms and I just received the first half of the well sampling results. I will tabulate and disperse after I have received all the data. If there is anything else I can do, please let me know.

Thank you,

David N. Larsen P.G

Hi Dave,

Hope your holiday season is going well and that you had a chance to go deer hunting.

Do you know when the gw sampling results will be back for Tower Standard?

Thanks.

Bob
